

Mini-Symposium:

# Attention!

from mouse to human

*Prof. Martin Sarter, Michigan, USA*

Neuronal mechanisms mediating and constraining attentional capacities

*Prof. Julio Martinez-Trujillo, Montreal, Canada*

Neural mechanisms of visual attention in the primate brain

*Prof. Jochen Braun, Magdeburg, Germany*

Attention in humans: psychophysics, imaging & computational models

**April 20<sup>th</sup>, 2009, 14<sup>c.t.</sup> to ca. 19h**

Lecture hall of the Max Planck Institute for Experimental Medicine
